Amman Imman:
Water is Life

Project

**Landscape Restoration for Ecosystem
Recovery**

Impressions

Capital Required

\$1.4 million

Organization Amman Imman: Water is Life

Project location Niger

Target Restore landscapes & ecosystem services, build sustainable livelihoods. Initial phase: 40,000 hectares, 53 communities (150,000 people) in northern Tahoua & Agadez regions.

Activities Agroforestry, Restoration, Silvopasture, Livelihoods, Education.

Impact Restoration of landscapes, biodiversity, & ecosystem services (water & soil regulation, microclimate regulation). Sustainable food production & NTFP-based livelihoods. Migration reduction and improvements in health & education. CO2 sequestration (conservative estimate from sustainable pasture techniques alone: 273kgC/Ha/year; 1tCO2/Ha/year).

Certification SoilWatch Tier 3

Investment start 2023

Investment period 5 years
